PROFESSIONAL SUMMERY

Versatile Full-Stack and Mobile Developer and ALX Software Engineering graduate proficient in the MERN stack, Next.js, and React Native. Skilled in building responsive web and mobile applications using modern frameworks like Tailwind CSS and MUI, alongside MongoDB backend architectures. Adept at rapid technology adoption, complex troubleshooting, and delivering high-performance, user-centric solutions on schedule.

Education

Wolkite University (WKU)

Wolkite, Ethiopia
2019-2024 G.C

BSc. in Software Engineering

- CGPA:3.67
- Related Coursework: Data Structures & Algorithms, Objects & Design, Computer Organization & Programming, SDLC, Machine Learning, Artificial Intelligence, Object-Oriented Programming, Design Pattern.

EXPERIENCE

Right tech solution plc

Addis ababa, Ethiopia
Nov 2024-present

Fullstack Engineer

- AddisGebeya (Demand-Driven Marketplace Platform): Engineered a reverse e-commerce platform connecting consumer demand directly to vendors, optimizing buyer-seller matching workflows, integrating Telebirr API and webhooks for real-time payment processing, and deploying it as a seamless Mini App inside the Telebirr SuperApp ecosystem.
- Ethiopian Diabetes Association Official Platform (ethdiabetes.org): Developed and launched the official responsive web platform featuring content management workflows, accessible UI patterns, and optimized SEO structures to streamline communication between health professionals and patients.
- Enterprise Stock Management System: Architected and deployed a real-time inventory and stock control application with low-stock notifications, transactional audits, normalized MySQL database schemas, and PHP backend logic to ensure data consistency.
- Drivers Training Controlling & Operations System: Built a centralized tracking suite for driver training centers, streamlining candidate registration, progress logging, administrative reporting, and custom database queries with interactive supervisor dashboards.

- Technologies: Next.js, React, React Native, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material-UI (MUI), FlutterFlow, Node.js, Express.js (MERN Stack), PHP, RESTful APIs, Webhooks, MongoDB, MySQL, Telebirr API, Telebirr SuperApp, cPanel, CentOS Web Panel, XAMPP, Git, GitHub, Cursor IDE, VS Code, Burp Suite, SSL Security

WKU Incubation Center
Clearance management system

Wolkite University
2022-2024 G.C

- Collaborated with a team and project advisor to build a comprehensive Clearance Management System for Wolkite University using Next.js, Material UI (MUI), Tailwind CSS, and MongoDB, strictly adhering to full SDLC methodologies.

ETCPC Ethiopian Collegiate Programming Conte

ASTU
sep 2021 G.C

- Competed in algorithm design and competitive programming using C++, Python, and Java to solve complex computational problems.

SKILLS

- **Programming**: JavaScript, TypeScript, Python, Java, C++,
- **Frontend**: Next.js, React.js, Tailwind CSS, HTML5, CSS3
- **Backend**: Node.js, Express.js, Nest.js, REST APIs, Server-Side Rendering (SSR)
- **Database**:MongoDB, Firestore ,MySQL
- **Cloud & DevOps**: Firebase, Docker, Git, GitHub Actions,
- **Software Engineering**: System Design, Authentication & Authorization, Database Design, Caching Strategies, Performance Optimization, Full Stack Architecture, Agile Development
